

Electric Moist Heating Pad

The Relief Pak® Electric Moist Heating Pad offers advanced therapeutic heat treatment without the hassle of adding water. This innovative heating pad naturally draws moisture from the air to deliver soothing moist heat therapy for patient comfort and recovery. With digital controls and multiple size options, it provides precise, customizable treatment for various body areas including back, neck, shoulders, and joints.

Key Features:

- Automatic moisture generation - no water needed
- Easy-to-use controller with large buttons and digital display
- Adjustable temperature control (113-167°F)
- Programmable timer (1-60 minutes)
- Auto shut-off safety feature
- Lock feature to prevent accidental setting changes
- Machine-washable cotton cover
- UL certified for safety
- One-year warranty

Available in three sizes:

- **Medium** (14" x 14") for targeted treatment
- **Large** (14" x 27") for broader coverage
- **Shoulder/Neck** specific design (23" x 20")
- designed specifically for the shoulder and neck

11-1275 Medium (14" x 14"), 110V
