

Mettler[®] ultrasound

shared features

- small portable size
- hand held operation
- rechargeable battery and charger for portable power
- packages include rechargeable battery (13-3408), battery charger (13-3410), power cable (13-3411) and battery case (13-3409)

Sonicator[®]
718

Sonicator[®]
719

Sonicator[®] 718

- full clinical power, 2 W/cm² continuous, 3 W/cm² pulsed portable ultrasound

- 5.5 cm² soundhead

13-3400	Sonicator 718 [®] package	2,265.00
13-3401	Sonicator 719 [®] package	2,265.00

Sonicator[®] 719

- 3.3 MHz 0.9 cm² portable ultrasound

accessories

13-3404	protective cap for 718 applicator	22.00
13-3405	protective cap for 719 applicator	22.00
13-3406	AC adaptor 718/719	285.00
13-3407	power cable for AC adaptor (718), (110-120V)	62.50
13-3408	rechargeable battery	155.00
13-3410	battery charger	155.00
13-3409	battery case for 13-3407	57.50
13-3411	power cable for battery charger	14.50
13-3402	unit stand for 718/719	32.50
13-3403	pouch for 718/719	82.50

Mettler[®] neuro stimulation

Sys*Stim[®] 240

- 9 stimulation waveforms for versatility; optional laser or cluster light therapy
- waveforms may be combined with on-off programs for neuromuscular education
- frequency and amplitude modulation programs for pain management
- patented M-Wheel[™] for easy navigation through menus
- complete anatomical library using built-in protocols with electrode placement
- add either the Laser (on page 129) or Cluster (infrared) probes for complete clinical versatility

13-3430	Sys*Stim [®] 240	3,180.00
13-3431	laser and cluster applicator kit	3,040.00
13-3433*	laser applicator kit 785nm, 80mW	1,735.00
13-3435*	cluster applicator kit 600/950nm, 500mW	1,400.00

* kit has applicator, holders, hardware and 2-glasses

Sys*Stim[®] 228

- very versatile unit
- 4 discreet waveforms including Interferential, Premodulation, Medium (Russian) and Biphasic
- additional versatility with various treatment modes: surge, reciprocation, surge with reciprocation and vector rotation
- use with any Mettler[®] ultrasound for combination therapy

13-3440	Sys*Stim [®] 228	2,000.00
---------	---------------------------	----------

Mettler[®] combination ultrasound and stimulation

Sonicator[®] Plus 920

- touch screen combination device offers Interferential (4-pole), Premodulated (2-pole), Medium frequency, Biphasic, Hi-Volt, TENS, Micro-current and DC waveforms
- allows clinician to treat 3 patients at the same time
- 61 pre-set protocols with additional space for your own protocols
- 11 languages and internal safety features
- additional .09 cm² applicator available

13-3450	Sonicator [®] Plus 920	4,290.00
