24-2723	L/R	large	55.00

EZEIbow™ Healing System

Compression alone does not fix tennis elbow pain

- treatment system designed specifically to treat tennis elbow pain
- universal sized elbow strap with interchangeable heat acupressure and ice therapy
- functional compression platform (strap) integrates treatments; go from heat to acupressure to ice in seconds!
- use compression sleeve during activities as a therapy system (do not use spikeplates™ during activity)
- system improves blood flow to the tendons in the elbow for accelerated healing
- using compression strap in spikeplates™ mode with Xtensor® corrective exercise device further improves blood-flow due to localized tissue stimulation

EZEIbow™ Compression Strap Kit

- includes compression strap with built in treatment pocket, reusable instant ice pack, reusable instant heat pack and spikeplates™ acupressure therapy plate

1 device - 4 modes!

- A EZ Elbow™ compression armband (1)
- B cold pack, re-usable (2)
- C hot pack, instant heat, re-usable (1)
- D spikeplates™ acupressure therapy plate (1)

- armband can be used alone, or with hot pack, cold pack or acupressure plate inserted into pocket (do not use spikeplates™ during activity)

50-5550 EZEIbow™ Compression Strap Kit 37.50

EZEIbow Pro™ - Tennis Elbow Healing System

- Xtensor® strengthens hands and forearms so they can better absorb the stress placed on them during repetitive activities
- includes: compression strap with built in treatment pocket, Xtensor® reverse grip strengthener, 2 reusable instant ice packs, 1 reusable instant heat pack and 1 spikeplates™ acupressure therapy plate

50-5560 EZEIbow Pro™ 67.50
