

Baseline® 5-position hydraulic pinch grip

use without paddle to accommodate small hands (same pinch width as standard pinch gauges)

5-grip width can accommodate large hands

- easy to adjust paddle accommodates to any size hand - other pinch gauges only have one pinch width
- pinch width without paddle is the same width as standard pinch gauge (mechanical and hydraulic)
- 5 pinch positions permits MVE and MMVE protocols to be used with tip, palmar and key tests

12-0480	5-position clinical pinch gauge	250.00
12-0490	5-position feedback pinch gauge	250.00
12-0480P	additional paddle for 5-position pinch gauge	25.00

2 year warranty

- adjustable handle fits all size hands for accurate and repeatable pinch measurements
- 5-position strength test protocols (MVE and MMVE) now can be used for pinch measurements
